## Nóinín Herbal Products

Our operating ethos is to create products that are as beneficial as possible. We use only the highest quality ingredients, organic wherever possible, from trusted and reliable sources.

All the plants used are grown organically by ourselves using the biodynamic method, harvested in the locality away from sources of pollution, or, in some cases, purchased from reputable organic suppliers.

We take great care with the formulation and manufacture of every product. By making small batches we ensure that products are as fresh as possible. Our products enjoy endorsement from massage therapists and herbal practitioners. Customer comments are unanimously favourable and we trust your experience will be similarly positive.
